Engineered with the builder in mind

Every Stormking GRP Cornice & Dentil product has been designed to be easy and quick to install. Our in-house Technical Team has engineered our cornice and dentil ranges with the builder in mind, as they are manufactured with modern lightweight materials and virtually maintenance free. All Stormking's cornice and dentil products are made to order, using modern manufacturing methods, to meet the customers specification.

Why Stormking?

- Stormking's Cornice and Dentil ranges meet National House Building Council (NHBC) Technical Standards.
- All products are created by our in-house design and technical teams.
- All Stormking's Cornice and Dentil products are manufactured off-site, saving you time onsite.
- Free site delivery.*

All Stormking Cornice and Dentil products have been designed to be easily and quickly installed, compared to traditionally built and installed cornice and dentil eaves. Stormking Cornice and Dentil products have been designed for stable onsite handling and ease of installation, reducing the need for specialist equipment. As all Stormking Cornice and Dentil items are manufactured off-site they benefit from a high level of quality and consistency, ensuring every cornice and dentil is as easy to install as the first one.

All Stormking Cornice and Dentils are manufactured off-site and made-to-order, delivered when you need them, ensuring no materials are wasted, saving you time onsite.

Performance features

Stormking's range of Cornice & Dentils provide the builder an all-in-one solution that cuts costs without compromising quality. Specialist engineering goes into producing dynamic GRP cornice and dentils to match the most complex designs or natural materials. Choose from a large range of decorative styles to suit your development, such as cills and cill heads, string courses, dentin and gable features.

- ✓ GRP Cornice and Dentils meet National House Building Council (NHBC) Technical Standards.
- ✓ Large range of designs, size and colour options to choose from.
- ✓ Exceptional high strength to weight requirements.
- ✓ Lightweight for increased safety working at heights.
- ✓ GRP is virtually maintenance free, for full lifetime cost savings.
- ✓ Dry fit, requiring no specialist trades for installation for domestic or commercial projects.
- ✓ Allows for tight tolerances and precision concealed joints.

Stormking offers GRP design freedom

GRP provides the freedom to design the products you want, knowing that all products are made-to-manufacture and constructed in the UK to your specifications.

Stormking's Cornice and Dentil products allow a plethora of design options including the choice of traditional or contemporary styles, material matching to stone or timber textures to ensure a consistent colouration with surrounding window products. All this helps you to realise your design in GRP and maximise your design freedom.

Stormking's in-house Design Team can assist with your project, to allow you to create the building component you need. Our friendly team are on hand to support you with specifying the best product for your development, including providing advice on design techniques and colour/texture matching your GRP cornice or dentil items.
