Dormers

Simply the easiest and safest dormer to install.

Engineered with the builder in mind

Every Stormking dormer unit has been designed to be easy and quick to install. Our in-house Technical Team has engineered our dormers with the builder in mind, as they are manufactured with modern lightweight materials and virtually maintenance free. All Stormking's dormer products are made to order, using modern manufacturing methods, to meet the customers specification.

Why Stormking?

- Dormer products are BBA certified and independently assessed to UKAS standards.
- All products are supported and maintained by our in-house design and technical teams.
- All dormers products are manufactured off-site, saving you time onsite.
- Free site delivery.*

All Stormking dormers have been designed to be easily and quickly installed, compared to traditionally built and installed dormers.

Stormking dormers have been engineered for easy handling and one-lift site installation, reducing the need for independent scaffolding requirements.

As all Stormking dormers are manufactured off-site they benefit from a high level of quality and consistency, ensuring every dormer is as easy to install as the first one.

All Stormking dormers are manufactured off-site and made-to-order, delivered when you need it, ensuring no materials are wasted, saving you time onsite.

Dormer Performance Features

Performance features

Stormking's range of dormers provide the builder an all-in-one solution that cuts costs without compromising quality. Specialist engineering goes into each dormer's inner structural support, so you can rely on a safe and sound product that still boasts a refined profile. Stormking dormers have been engineered for easy handling and one-lift site installation, reducing the need for independent scaffolding requirements.

BBA certified (Certificate No. 17/5434) and independently assessed to UKAS standards.

Dormers

Stormking offers GRP design freedom

GRP provides the freedom to design the products you want, knowing that all products are made-to-manufacture and constructed in the UK to your specifications.

Stormking's inhouse Design Team can assist with your project, to allow you to create the building component you need. Full, half or a uniquely shaped dormer is possible when specifying your project in GRP.

Our dormer styles

Please contact sales@stormking.co.uk for more information on how we can assist you.

Dormers

We are Stormking

Stormking is the leading brand of GRP building components to the house building and construction industry in the UK.

Stormking was founded in 1985 and has worked hard to become and maintain being the market leader through its range of market leading products, all manufactured off-site, to save you time on-site!

Customers can have extra confidence when placing an order with Stormking, being part of Epwin Group PLC, a £330m business and one of the UKs largest manufacturers of extruded building products.

Specifying Stormking products is made easier with the support of our in-house Design and Technical Teams, who can assist with any design related questions or queries. GRP is a modern manufacturing process, supported by state-of-the-art manufacturing and design technologies, providing design freedom to clients and customers.

Stormking incorporates over 500,000 sq ft of modern manufacturing methods spread over 5 sites and employing over 350 employees which results in large-scale manufacturing capacities.

Stormking holds several industry recognised accreditations. As the only GRP manufacturer to hold BBA certificates across its product portfolio, every product line is audited annually, ensuring our customers can be confident of receiving a quality product, every time.
